Sub: Testing Charges of DTs upto and including 2500KVA at 33KV voltage class.

Dear Sir,

We have been given to understand that CPRI has given the routine and the type testing charges for DTs upto 2500KVA rating at voltage class 11KV, 22KV & 33KV in different slabs of rating of transformers and voltage class. BIS has placed the testing charges as given by CPRI on their website for the information of all concerned.

You are also requested to provide the testing charges for DTs from 5kva to 2500Kva at 11kv,22Kv & 33Kv level to BIS so that the same could be placed by BIS on their website for the information of all concerned and a comparison would be available to the industry and members at large.

Kindly do the needful on priority with a copy to ITMA so that our members could be appraised accordingly.

Thanking you

Yours Faithfully

(B.LAL)
